About Us

Club Menangle has made its mark on the Australasian harness racing scene but we are far more than just a racetrack! We pride ourselves on being a first class hospitality facility. We have over 115 years experience as a registered Club and in the harness racing industry.

After moving from Harold Park in 2010, the club has invested over \$75 million in our current facilities at Menangle Park. The Club has a diversification of operations with two venues, Club Menangle Trackside and the recently refurbished Menangle Country Club. We offer our members and guests a great range of benefits across Southwest Sydney's most exciting entertainment precinct.

Both complexes boast some of the largest and most versatile entertainment spaces on offer. Our facilities appeal to the entire family and are suitable for both race day hospitality as well as non-race day events of any scale across all function formats.

Amongst all the fun, our partners, whether they be corporate, families, members, guests, participants or community, have become a vital part of our operations. Take the next step with us today...
